Competitive Sealed Proposal
(29 Del.C. §6924)

Agreement No. 1366

ROAD CLEANING MATERIAL REMEDIATION

PROJECT DESCRIPTION

The purpose of this process is to provide services for transport, treatment or remediation, and disposal or recycling, of potentially contaminated street sweeper wastes and drainage cleanout materials, staged at DelDOT maintenance yards in New Castle County. This is a three-year, open-end Agreement.

CONSULTANT SERVICES REQUIRED

Services include but are not limited to the following:

- Screening of materials, if required.
- Monthly pick-up of wastes. This can be modified to an “on call” basis as the Department deems necessary.
- Treatment, process, and final disposition of residuals to provide conversion to a safe, environmentally compatible end product with potential for beneficial reuse.
- Treatment shall take place at contractor’s processing facilities that provides sufficient capacity to meet the Department’s needs.
- Treatment must be environmentally compatible, with minimal impact on air or water quality.
- Provide all required chemical analyses.
- Quantities of residuals generated are based upon estimates from previous years. The Department reserves the right to increase or decrease the volume covered under this contract based on funding and the Department’s needs and best interest.

REQUEST FOR PROPOSAL

Candidate firms must request the COMPETITIVE SEALED PROPOSAL (CSP) for this project. Requests may be made via telephone, facsimile, or e-mail. Proposals may be obtained from:
